

**REMARKS**

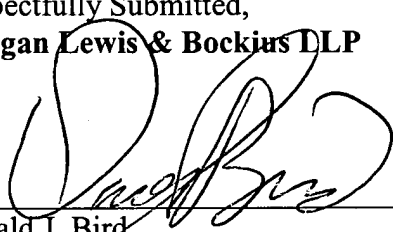

***Specification and Claim Amendments***

The present application is a continuation of parent application Serial No. 10/080,176.

The specification has been amended to correct the clerical omission of a set of parentheses appearing in the compound name at page 22, line 8 of the specification.

The foregoing claim amendments have been made to direct the claims to subject matter that was not elected and prosecuted in the parent application, *i.e.* method claims relating to the quinazoline derivative of formula I. As such, claims 1-16 have been canceled and new claims 17-22 have been added. No new matter has been introduced by the new claims. Entry of these amendments is respectfully requested prior to taking up this application for a first action on the merits. Following entry of these amendments, claims 17-22 will be pending in this application.

Respectfully Submitted,  
**Morgan Lewis & Bockius LLP**
